

# Landscape & Enthusiast Plants Native to Broward

## NEARLY COMPREHENSIVE LIST OF OVER 380 LOCAL NATIVE LANDSCAPE SPECIES

This is a list of species that grew in Broward County historically AND are potentially suitable for landscapes. All of them have been cultivated either for landscaping or by devoted enthusiasts who grow rare or difficult-to-find native species.

This is the most comprehensive list of native landscape species (about 380 species) ever compiled specifically for Broward and organized to find suitable species. It provides a diverse and rich pallet for landscapers and common gardeners.

This information has been gleaned from the "Native for Your Neighborhood" database created by the Institute for Regional Conservation, RegionalConservation.org (click on their "Natives for Your Neighborhood" icon). Landscapers and novice gardeners alike can easily access the original IRC information and view photographs of every one of these species on the IRC site. The Broward Chapter of the Florida Native Plant Society considers the IRC information to be the most reliable, scientific, and up-to-date native plant information available.

## FIND ALL THE SPECIES SUITABLE FOR A SITE

This is the only list that groups these species according to their light and moisture requirements and lists them by height. Now landscapers and gardeners can finally see all the species they might consider for a particular spot. We hope that this encourages gardeners to try new species now rarely seen in native landscaping, but potentially highly desirable for their beauty, their behavior in the landscape, and their value to wildlife.

## WHY RIGHT PLANT, RIGHT PLACE IS SO IMPORTANT FOR NATIVE LANDSCAPING

One of the fundamental principles of native landscaping is to create sustainable landscapes the use little supplemental water, no chemical fertilizers or pesticides, and are maintained to allow species to flower and fruit naturally so that they can continue to perform their historic role in providing food and cover for wildlife. To achieve the goals of sustainability, species need to match the existing light and moisture conditions of the planting site.

Plants also need to be the right size for the landscape at their maturity so that regular pruning is not required and does not interfere with the plant's seasonal behavior or its fundamental form and character. A plant's natural form may be exactly what wildlife needs, but it is also this individuality that makes native landscapes so interesting and appealing.

These fundamental differences from conventional landscaping, make it more important to choose the "right plant for the right place." This list is created to facilitate the native landscaper's search for the right species. All the species that thrive in a particular zone are listed here. Since some of these species are uncommon in landscapes, landscapers may need to experiment with several seemingly suitable species to discover which actually work best in the landscape.

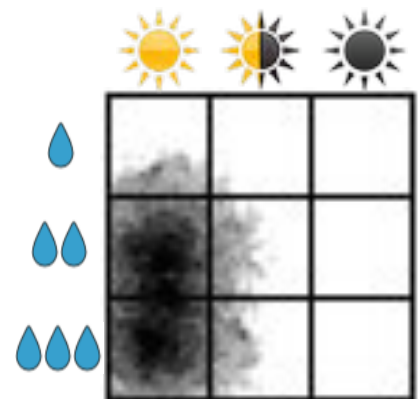

To provide feedback that will improve this list, email: [Richard@Brownscombe.net](mailto:Richard@Brownscombe.net)

## NINE LIGHT & MOISTURE ZONES

A species light and moisture requirements are contradictory and confusing when you compare several online and print sources. We have taken on that challenge by using the most reliable source and then creating just 3 soil moisture zones (Wetter, Average, and Drier Soils) to keep it simple. However, these simplified nine zones are a bit misleading for the more adaptable species that thrive in more than one zone. To make that easy, we created the nine-zone graph showing all the light and moisture zones where a species is most likely to thrive.

There may be other factors to consider on some landscape sites, such as salt tolerance. Check RegionalConservation.org for additional species information.

In the example at the right, the species does well in Average AND Wetter Soils in the Sun. Landscapers and common gardeners can try this species in both zones with a high likelihood of success.

\* Asterisk indicates a Southeast Region-wide Landscape species recommended by FNPS.

Revised: 7/24/2017

Sun Drier Soils		Mature Height		
* <i>Pinus clausa</i>	Sand Pine	Tree	40'+	 well-drained sandy soils, without humus; flammable, not close to structures
<i>Quercus geminata</i>	Sand Oak	Tree	40'+	 well-drained sandy soils
<i>Quercus chapmanii</i>	Chapman's Oak	Shrub	20'	 well-drained sandy soils
<i>Ceratiola ericoides</i>	Florida Rosemary, Sand Heath	Shrub	6'	 well-drained sandy soils, without humus
<i>Lyonia fruticosa</i>	Coastalplain Staggerbush	Shrub	6'	 well-drained sandy or limestone soils, acid pH
<i>Andropogon virginicus var. glaucus</i>	Chalky Bluestem	Grass	6'	 well-drained sandy soils, without humus
<i>Conradina grandiflora</i>	Largeflower False Rosemary	Shrub	3'	 well-drained sandy soils, without humus
* <i>Opuntia humifusa</i>	Pricklypear	Shrub	3'	 well-drained sandy or limestone soils, without humus
<i>Palafoxia feayi</i>	Feay's Palafox	Shrub	3'	 well-drained sandy soils, without humus: FL endemic
<i>Balduina angustifolia</i>	Yellow-Buttons, Coastalplain Honeycombhead	Wildflower	3'	 well-drained sandy soils, without humus
<i>Heterotheca subaxillaris</i>	Camphorweed	Wildflower	3'	 well-drained sandy soils, without humus
* <i>Liatris chapmanii</i>	Chapman's Gayfeather	Wildflower	3'	 well-drained sandy soils, without humus
<i>Polygonella polygama</i>	October Flower	Wildflower	3'	 More wildflower than ground cover, but beautiful delicate summer-fall bloom.
* <i>Licania michauxii</i>	Gopher-apple	Herb	3'	 Spreads by underground stems; slow growing; will grow from seed.
<i>Andropogon ternarius</i>	Splitbeard Bluestem	Grass	3'	 Mow after flowering.
<i>Vaccinium myrsinites</i>	Shiny Blueberry	Shrub	2'	 Short, compact, densely branched shrub; will grow from de-pulped seed.
<i>Eryngium aromaticum</i>	Fragrant Eryngium, Fragrant Eryngo	Wildflower	2'	 well-drained sandy soils, without humus
* <i>Piloblephis rigida</i>	Wild Pennyroyal	Wildflower	2'	 Short herbaceous wildflower, nectar for butterflies year round.
<i>Aristida beyrichiana</i>	Southern Wiregrass	Grass	2'	 well-drained sandy soils, without humus
<i>Chrysopsis scabrella</i>	Coastalplain Goldenaster	Wildflower	1'	 12-18" yellow aster, often falls over forming open mats.
<i>Physalis walteri</i>	Walter's groundcherry	Herb	1'	 6-12" herb with tomatillo-like edible fruit forming small patches.
<i>Cnidoscolus stimulosus</i>	Tread-Softly, Finger-Rot, 7-Minute-Itch	Wildflower	< 1'	 well-drained sandy or limestone soils, without humus; pretty, but stinging
<i>Commelina erecta</i>	Whitemouth dayflower	Wildflower	< 1'	 3-12" creeping wildflower with showy blue flower, one petal white.
<i>Galactia regularis</i>	Eastern Milkpea	Wildflower	< 1'	 2-3" creeping pink wildflower forming open mats.
<i>Polygala violacea</i>	Candyweed, Showy Milkwort	Wildflower	< 1'	 well-drained sandy or limestone soils, without humus; tiny
<i>Stylisma villosa</i>	Hairy Dawnflower	Wildflower	< 1'	 3-6" creeping wildflower with white flowers forming open patches.
<i>Bulbostylis ciliatifolia</i>	Densetuft Hairsedge	Herb	< 1'	 well-drained sandy soils, without humus

	Sun	Average Soils		Mature Height		
<i>Phyllanthus abnormis</i>		Drummond's Leafflower	Herb	< 1'		well-drained sandy soils, without humus
<i>Selaginella arenicola</i>		Sand Spike-Moss	Herb	< 1'		well-drained sandy soils, without humus; fern relative
<i>Tillandsia recurvata</i>		Ball Moss	Epiphyte	< 1'		needs humidity, but high drought tolerance
<i>Tillandsia usneoides</i>		Spanish Moss	Epiphyte	N/A		needs humidity, but high drought tolerance
* <i>Coccoloba diversifolia</i>		Pigeonplum, Tietongue	Tree	40'+		
<i>Coccoloba uvifera</i>		Seagrape	Tree	40'+		well-drained sandy or limestone soils, with humusy top layer
<i>Conocarpus erectus</i>		Buttonwood	Tree	40'+		Periodically inundated to moist, well- to moderately-drained, brackish OK; green form native to Broward
<i>Ficus aurea</i>		Strangler fig, Golden fig	Tree	40'+		well- to moderately-drained sandy or limestone soils, with humusy top layer
<i>Ficus citrifolia</i>		Short-Leaf Fig, Wild Banyan Tree	Tree	40'+		well-drained limestone (rarely sandy) soils, with humusy top layer
* <i>Quercus virginiana</i>		Virginia live oak	Tree	40'+		well- to moderately-drained; sandy, limestone or organic soils, humusy top
<i>Sideroxylon foetidissimum</i>		Wild Mastic, False Mastic	Tree	40'+		well-drained sandy or limestone soils, with humusy top layer; up to 118 feet
<i>Sideroxylon salicifolium</i>		Willow-Bustic, White Bully	Tree	40'+		well-drained sandy or limestone soils, with humusy top layer
* <i>Parthenocissus quinquefolia</i>		Virginia-creeper, Woodbine	Vine	40'+		Can be aggressive.
* <i>Amyris elemifera</i>		Torchwood	Tree	20'		well-drained sandy or limestone soils, with humusy top layer
* <i>Guapira discolor</i>		Bolly, Beeftree	Tree	20'		well-drained sandy or limestone soils, with humusy top layer
* <i>Nectandra coriacea</i>		Lancewood	Tree	20'		
<i>Zanthoxylum coriaceum</i>		Biscayne Prickly-Ash	Tree	20'		well-drained sandy soils, with humusy top layer
<i>Zanthoxylum fagara</i>		Wild-lime, Lime prickly-ash	Tree	20'		well-drained sandy or limestone soils, with humusy top layer; spiny
<i>Cynophalla flexuosa</i>		Limber Caper	Shrub	20'		well-drained sandy or limestone soils, with humusy top layer
<i>Pithecellobium keyense</i>		Florida Keys Blackbead	Shrub	20'		well-drained sandy or limestone soils, with humusy top layer
<i>Forestiera segregata</i>		Florida Privet	Shrub	10'		well-drained sandy or limestone soils, with humusy top layer
<i>Hamelia patens var. patens</i>		Firebush	Shrub	10'		well-drained sandy or limestone soils, with humusy top layer; native redder petiole, mostly 3-whorl, hairless
* <i>Quadrella cynophallophora</i>		Jamaica Caper	Shrub	10'		well-drained sandy or limestone soils, with humusy top layer
<i>Rhus copallinum</i>		Winged Sumac	Shrub	10'		well-drained sandy or limestone soils, without humusy top layer
<i>Solanum erianthum</i>		Potatotree	Shrub	10'		well-drained sandy or limestone soils, with humusy top layer
<i>Sophora tomentosa var. truncata</i>		Yellow Necklacepod	Shrub	10'		well-drained sandy or limestone soils, with humusy top layer; rarely on Everglades peat
* <i>Suriana maritima</i>		Baycedar	Shrub	10'		well-drained sandy or limestone soils with persistent leaf litter
<i>Cardiospermum corindum</i>		Balloonvine, Heartseed	Vine	10'		well-drained limestone soils, with humusy top layer

<i>Lantana involucrata</i>	Wild Sage	Shrub	6'		well-drained limestone or sandy soils, with or without humusy top layer
* <i>Psychotria nervosa</i>	Shiny-leaved wild coffee	Shrub	6'		
<i>Quercus pumila</i>	Running Oak	Shrub	6'		well-drained sandy or limestone soils, without humusy top layer
* <i>Randia aculeata</i>	White Indigo berry	Shrub	6'		well-drained sandy or limestone soils, with humusy top layer
<i>Scaevola plumieri</i>	Inkberry, Beachberry, Gullfeed	Shrub	6'		well-drained sandy or limestone soils, without humus
* <i>Tournefortia gnaphalodes</i>	Sea Lavender	Shrub	6'		well-drained, sandy or limestone soils, without humus
<i>Pteridium caudatum</i>	Lacy Bracken	Fern	6'		well-drained limestone or sandy soils, usually without humusy top layer
<i>Phytolacca americana</i>	American Pokeweed	Herb	6'		well-drained sandy or limestone soils, with humusy top layer
<i>Echites umbellatus</i>	Devil's-Potato, Rubbervine	Vine	6'		well-drained limestone or sandy soils, with or without humusy top layer
<i>Vigna luteola</i>	Cow-Pea, Hairypod Cowpea	Vine	6'		well-drained sandy or limestone soils, with or without humusy top layer
<i>Croton linearis</i>	Pineland Croton, Grannybush	Shrub	3'		well-drained sandy or limestone soils, without humus.
<i>Iva imbricata</i>	Beach-Elder, Seacoast Marshelder	Shrub	3'		well-drained sandy soils, without humus
<i>Carphephorus corymbosus</i>	Florida Paintbrush, Coastalplain Chaffhead	Wildflower	3'		well-drained sandy soils, without humus
<i>Cirsium horridulum</i>	Purple thistle	Wildflower	3'		well-drained to moderately well-drained sandy or limestone soils, without humus
<i>Euphorbia mesembrianthemifolia</i>	Seaside Spurge, Coastal Beach Sandmat	Wildflower	3'		well-drained sandy soils, without humusy top layer
<i>Liatris gracilis</i>	Slender Gayfeather	Wildflower	3'		well-drained sandy or limestone soils, without humus
<i>Melanthera nivea</i>	Snow Squarestem	Wildflower	3'		well-drained sandy or limestone soils
<i>Solidago odora chapmanii</i>	Chapman's Goldenrod	Wildflower	3'		well-drained sandy or limestone soils, without humus
<i>Pteridium pseudocaudatum</i>	Tailed Bracken Fern	Fern	3'		well-drained sandy soils, usually without humusy top layer
<i>Cakile lanceolata</i>	Coastal Searocket	Herb	3'		well-drained sandy soils, without a humusy top layer; not generally for landscape use
<i>Croton punctatus</i>	Beach-Tea, Gulf Croton	Herb	3'		well-drained sandy soils, without humus
<i>Quercus minima</i>	Dwarf Live Oak	Herb	3'		well-drained sandy or limestone soils, without humusy top layer
<i>Stillingia sylvatica</i>	Queensdelight	Herb	3'		well-drained sandy or limestone soils, without humus
* <i>Zamia integrifolia</i>	Coontie, Florida Arrowroot	Herb	3'		Also part sun, moist soils.
<i>Andropogon longiberbis</i>	Hairy Bluestem	Grass	3'		well-drained sandy or limestone soils, without humus
<i>Panicum amarum</i>	Beachgrass, Bitter Panicgrass	Grass	3'		well-drained sandy soils, without humus
<i>Schizachyrium sanguineum</i>	Crimson Bluestem	Grass	3'		well-drained sandy or limestone soils, without humus
<i>Sorghastrum secundum</i>	Lopsided Indian Grass	Grass	3'		well-drained sandy or limestone soils, without humus

<i>Uniola paniculata</i>	Sea-Oats	Grass	3'		well-drained sandy soils, without humus; salt wind, but not salt water tolerant
<i>Jacquemontia pentanthos</i>	Keys Morning Glory	Vine	3'		well-drained limestone or calcareous sandy soils, with humusy top layer
<i>Jacquemontia reclinata</i>	Beach Clustervine; Beach Jacquemontia	Vine	3'		well-drained sandy soils, without humusy top layer; FL endemic
<i>Asclepias tuberosa</i>	Butterflyweed, Butterfly Milkweed	Wildflower	2'		well-drained calcareous or sandy soils, without humus
* <i>Helianthus debilis subsp. debilis</i>	East Coast Dune Sunflower	Wildflower	2'		well-drained sandy soils, without humus
<i>Melanthera parvifolia</i>	Pineland Blackanthers	Wildflower	2'		well-drained limestone (rarely sandy) soils, without humus
* <i>Pityopsis graminifolia</i>	Silkgrass	Wildflower	2'		well-drained sandy or limestone soils, without humus
<i>Stachytarpheta jamaicensis</i>	Jamaican Porterweed	Wildflower	2'		well-drained sandy or limestone soils without humus; native is clambering < 2' high
<i>Schizachyrium gracile</i>	Wire Bluestem	Grass	2'		well-drained limestone soils, without humus
<i>Schizachyrium rhizomatum</i>	Rhizomatous Bluestem	Grass	2'		seasonally wet, well-drained to moderately well-drained limestone or sandy soils, without humus: up to 6 feet
<i>Schizachyrium scoparium</i>	Little Bluestem	Grass	2'		well-drained sandy soils, without humus
<i>Sporobolus junceus</i>	Pineywoods Dropseed	Grass	2'		well-drained sandy or limestone soils, without humus
<i>Clematis baldwinii</i>	Pine-hyacinth	Wildflower	1'		well-drained sandy soils, without humus; Florida endemic
<i>Dalea carnea</i>	Whitetassels	Wildflower	1'		well-drained sandy or limestone soils, without humus
<i>Elephantopus elatus</i>	Florida Elephant's-Foot, Tall Elephant's-Foot	Wildflower	1'		well-drained sandy soils, without humus
* <i>Glandularia maritima</i>	Coastal Mock Vervain	Wildflower	1'		well-drained sandy or limestone soils, without humus; FL endemic
<i>Hieracium megacephalon</i>	Coastal Plain Hawkweed	Wildflower	1'		well-drained sandy or limestone soils, without humus
<i>Pterocaulon pycnostachyum</i>	Blackroot	Wildflower	1'		well-drained sandy or limestone soils, without humus
<i>Ruellia caroliniensis</i>	Wild Petunia	Wildflower	1'		well-drained sandy soils, without humus
<i>Sisyrinchium nashii</i>	Nash's Blueeyed-Grass	Wildflower	1'		well-drained sandy or limestone soils, without humus
<i>Trichostema dichotomum</i>	Forked bluecurls	Wildflower	1'		well-drained sandy or limestone soils, without humus
<i>Croton glandulosus floridanus</i>	Florida Vente Conmigo	Herb	1'		well-drained sandy or limestone soils, without humus
<i>Croton glandulosus septentrionalis</i>	Vente Conmigo	Herb	1'		well-drained sandy or limestone soils, without humus
<i>Euphorbia polyphylla</i>	Lesser Florida Spurge	Herb	1'		well-drained sandy or limestone soils, without humusy top layer
<i>Evolvulus sericeus</i>	Silver Dwarf Morningglory	Wildflower	<1'		2-4" spreading Morningglory with white flower.
<i>Ipomoea imperati</i>	Beach Morningglory	Vine	<1'		1-6" ground cover with showy white flowers.
<i>Tripsacum dactyloides</i>	Eastern gamagrass, Fakahatchee grass				Plants in full sun may need wetter soils.
<i>Crotalaria rotundifolia</i>	Rabbitbells	Wildflower	< 1'		3-6" yellow pea-like wildflower, leaves may be round or narrow.

<i>Dyschoriste angusta</i>	Rockland Twinflower, Pineland Snakeherb	Wildflower	< 1'		4-8" wildflower with narrow finely-textured leaves and blue or purple flower; <i>D. oblongifolia</i> not local.
<i>Elytraria caroliniensis angustifolia</i>	Carolina Scalystem	Wildflower	< 1'		well-drained sandy or limestone soils, without humus; FL endemic
<i>Heliotropium polyphyllum</i>	Pineland Heliotrope	Wildflower	< 1'		Small wildflower with spreading stems; yellow form is local; nectar plant.
<i>Linaria canadensis</i>	Canada Toadflax	Wildflower	< 1'		4-8" diminutive pale to blue wildflower; host for common buckeye butterfly.
<i>Lobelia feayana</i>	Bay Lobelia	Wildflower	< 1'		6-12" blue spring wildflower.
<i>Oenothera humifusa</i>	Seaside Evening-Primrose	Wildflower	< 1'		3-6" creeping dune yellow wildflower; will grow from seed.
<i>Pectis glaucescens</i>	Tea-Blinkum, Sanddune Cinchweed	Wildflower	< 1'		1-4" spreading wildflower with tiny, bright yellow flowers
<i>Portulaca pilosa</i>	Pink purslane, Kiss-me-quick	Wildflower	< 1'		1-4" spread wildflower with pink flowers, succulent-like leaves.
<i>Rhynchospora floridensis</i>	Florida Whitetop	Wildflower	< 1'		6-12 sedge with 18" white top flowers with white and green bracts.
<i>Sida elliotii</i>	Elliott's Fanpetals	Wildflower	< 1'		well-drained sandy or limestone soils, without humus
<i>Tephrosia curtissii curtissii</i>	Curtiss' Hoarypea	Wildflower	< 1'		well-drained sandy soils, without humus; FL endemic
<i>Tephrosia florida</i>	Florida Hoarypea	Wildflower	< 1'		well-drained sandy or limestone soils, without humus
<i>Abildgaardia ovata</i>	Flatspike Sedge	Herb	< 1'		well-drained limestone soils, without humus
<i>Alternanthera maritima</i>	Seaside Joyweed	Herb	< 1'		3-12" scrambling herb with glossy red and green leaves and white flowers.
* <i>Crotalaria pumila</i>	Low Rattlebox	Herb	< 1'		well-drained sandy or limestone soils, without humus
<i>Neptunia pubescens</i>	Tropical-puff	Herb	< 1'		2-6" creeping herb with clusters of yellow flowers.
<i>Okenia hypogaea</i>	Beach-Peanut, Burrowing Four-O'Clock	Herb	< 1'		2-6" creeping annual with intense deep pink flower, gray-green leaves.
<i>Remirea maritima</i>	Beachstar	Herb	< 1'		2-3" rhizomatous sedge.
<i>Dichantherium aciculare</i>	Needleleaf Witchgrass	Grass	< 1'		6-12" grass common to Pinelands and prairies.
<i>Canavalia rosea</i>	Beach-Bean, Baybean, Seaside Jackbean	Vine	< 1'		Sprawling or climbing vine to 50' with showy pink flower; seeds poisonous.
* <i>Ipomoea pes-caprae brasiliensis</i>	Railroadvine, Bayhops	Vine	< 1'		Coastal vine on sand to 100' with large pink flower.
* <i>Passiflora suberosa</i>	Corkystem Passionflower	Vine	< 1'		
Sun Wetter Soils				Mature Height	
* <i>Acer rubrum</i>	Red Maple	Tree	40'+		Beautiful red leaves; poorly-drained to seasonally inundated organic freshwater soils. with a humusy top layer
* <i>Annona glabra</i>	Pond-apple	Tree	40'+		Poorly-drained to moderately well-drained organic soils
<i>Avicennia germinans</i>	Black Mangrove	Tree	40'+		Saline soil & water.
* <i>Ilex cassine</i>	Dahoon holly, Dahoon	Tree	40'+		Female has red berries; moderately well-drained to poorly-drained organic or sandy soils. often with acid pH
<i>Laguncularia racemosa</i>	White Mangrove	Tree	40'+		
<i>Morus rubra</i>	Red mulberry	Tree	40'+

<i>Pinus elliottii</i> var. <i>densa</i>	South Florida Slash Pine	Tree	40'+		well-drained sandy or limestone soils, without humus
<i>Quercus laurifolia</i>	Laurel Oak	Tree	40'+		
<i>Taxodium ascendens</i>	Pond Cypress	Tree	40'+		
<i>Taxodium distichum</i>	Bald Cypress	Tree	40'+		Trees that adapt to reach water may tolerate average soils.
<i>Diospyros virginiana</i>	Persimmon, Common persimmon	Tree	20'		seasonally wet, moderately- to well-drained sandy or limestone soils, with humus top layer
* <i>Magnolia virginiana</i>	Sweetbay Magnolia	Tree	20'		Botanists consider this the most primitive tree native to South Florida.
<i>Persea palustris</i>	Swamp Bay	Tree	20'		
<i>Rhizophora mangle</i>	Red Mangrove	Tree	20'		Saline or brackish; up to 75 feet.
* <i>Cephalanthus occidentalis</i>	Buttonbush	Shrub	20'		
<i>Myrsine cubana</i>	Myrsine	Shrub	20'		Dark fruits borne on stems.
<i>Salix caroliniana</i>	Coastal Plain willow	Shrub	20'		Broad as tall; in partial shade may need less soil moisture.
<i>Baccharis halimifolia</i>	Saltbush, Groundsel tree, Sea-myrtle	Shrub	10'		occasionally wet, well-drained to moderately well-drained, sandy, limestone or organic soils
* <i>Myrica cerifera</i>	Wax myrtle, Southern Bayberry	Shrub	10'		Handsome accent shrub or occasionally grows to small 30-foot tree.
<i>Sambucus nigra canadensis</i>	Elderberry, American elder	Shrub	10'		Wines and jellies made from fruit; elder flower water and batter fried flowers.
* <i>Acrostichum danaeifolium</i>	Giant leather fern	Fern	10'		Especially useful along the edges of freshwater or brackish ponds and marshes.
<i>Typha latifolia</i>	Common Cat-tail, Broadleaf Cat-tail	Herb	10'		
<i>Zizaniopsis miliacea</i>	Southern Wild-Rice, Giant Cut-Grass	Grass	10'		Larval host plant for clouded skipper ( <i>Lerema accius</i> ) and least skipper ( <i>Anatoxpha numitor</i> ) butterflies.
<i>Cynanchum angustifolium</i>	Vine Milkweed, Gulf Coast Swallowwort	Vine	10'		
<i>Rhabdadenia biflora</i>	Mangrove Rubbervine, Mangrovevine	Vine	10'		
* <i>Symphotrichum carolinianus</i>	Climbing Aster	Vine	10'		Monarch nectar
<i>Baccharis angustifolia</i>	Narrowleaved Groundsel, Saltwater Falsewillow	Shrub	6'		
<i>Baccharis glomeruliflora</i>	Silverling	Shrub	6'		forest edges and thickets; also disturbed sites
<i>Hibiscus grandiflorus</i>	Swamp Rosemallow	Shrub	6'		
* <i>Ilex glabra</i>	Gallberry, Inkberry	Shrub	6'		
<i>Cicuta maculata</i>	Spotted Water-Hemlock	Wildflower	6'		
<i>Kosteletzkya virginica</i>	Virginia saltmarsh mallow	Wildflower	6'		
<i>Solidago sempervirens</i>	Seaside Goldenrod	Wildflower	6'		
* <i>Canna flaccida</i>	Yellow Canna	Herb	6'

				Mature Height	
<i>Bacopa monnieri</i>	Water hyssop, Herb-of-grace	Wildflower	< 1'		Forms large patches in wet areas; host to White Peacock butterfly.
<i>Erigeron quercifolius</i>	Southern-fleabane, Oakleaf fleabane	Wildflower	< 1'		Forms large masses with white to lavender flower.
<i>Hypericum gentianoides</i>	Pineweeds, Orangegrass	Wildflower	< 1'		
<i>Justicia angusta</i>	Narrow-Leaved Waterwillow	Wildflower	< 1'		
<i>Pinguicula pumila</i>	Small Butterwort	Wildflower	< 1'		
<i>Piriqueta cistoides caroliniana</i>	Pitted Stripeseed	Wildflower	< 1'		
<i>Rhynchospora colorata</i>	Starrush whitetop	Wildflower	< 1'		6-12" sedge to 24" white top flowers with white and green bracts.
<i>Samolus ebracteatus</i>	Water Pimpernel, Limewater Brookweed	Wildflower	< 1'		
<i>Stenandrium dulce</i>	Pinklet	Wildflower	< 1'		
<i>Blutaparon vermiculare</i>	Samphire, Silverhead	Herb	< 1'		
<i>Drosera capillaris</i>	Pink Sundew	Herb	< 1'		
<i>Eleocharis baldwinii</i>	Baldwin's Spikerush, Roadgrass	Herb	< 1'		
<i>Eleocharis geniculata</i>	Canada Spikerush	Herb	< 1'		2-12" forming small clumps; moderately salt-tolerant.
<i>Ludwigia repens</i>	Red Ludwigia	Herb	< 1'		Often in shallow water.
<i>Phyla nodiflora</i>	Frogfruit, Turkey tangle fogfruit, Capeweed	Herb	< 1'		Forms large, dense patches along pond and lake edges.
<i>Sacrocornia perennis</i>	Perennial Glasswort	Herb	< 1'		Evolutionarily primitive red, orange, green fleshy stems forming mats.
<i>Sesuvium portulacastrum</i>	Sea Purslane	Herb	< 1'		Succulent, edible leaves, salt tolerant, forms large patches.
<i>Distichlis spicata</i>	Saltgrass	Grass	< 1'		4-8" grass to 12" in flower for saline soils.
<i>Sporobolus virginicus</i>	Seashore Dropseed	Grass	< 1'		6-12" grass to 18" flower for brackish soils.
<b>Sun Aquatic</b>					
<i>Nymphaea odorata</i>	American Waterlily	Wildflower	< 1'		
<i>Utricularia foliosa</i>	Leafy Bladderwort	Wildflower	< 1'		poorly-drained to permanently inundated calcareous or organic soils
<i>Utricularia gibba</i>	Cone-Spur Bladderwort, Humped Bladderwort	Wildflower	< 1'		
<i>Utricularia purpurea</i>	Eastern Purple Bladderwort	Wildflower	< 1'		
<i>Nymphoides aquatica</i>	Big Floating Heart	Aquatic	< 1'		
<i>Potamogeton illinoensis</i>	Illinois Pondweed	Aquatic	< 1'		
<i>Vallisneria americana</i>	Tape-Grass, American Eel-Grass	Aquatic	< 1'		
<i>Azolla caroliniana</i>	Carolina Mosquito Fern	Aquatic	< 1'

Mature Height

* <i>Simarouba glauca</i>	Paradisetree	Tree	40'+		
<i>Carya floridana</i>	Scrub Hickory	Tree	20'		
<i>Ximenia americana</i>	Hog-Plum, Tallowwood	Tree	20'		
* <i>Quercus myrtifolia</i>	Myrtle Oak	Shrub	20'		
* <i>Eugenia foetida</i>	Spanish Stopper, Boxleaf Stopper	Shrub	10'		
<i>Sabal etonia</i>	Scrub Palmetto	Shrub	10'		FL endemic
<i>Sideroxylon tenax</i>	Tough Florida Bully	Shrub	10'		
* <i>Callicarpa americana</i>	American Beautyberry	Shrub	6'		Some have white berries.
* <i>Serenoa repens</i>	Saw Palmetto	Shrub	6'		
<i>Asimina reticulata</i>	Common Pawpaw, Netted Pawpaw	Wildflower	3'		
* <i>Chamaecrista fasciculata</i>	Partridge Pea	Wildflower	3'		
<i>Tillandsia utriculata</i>	Giant wild-pine, Giant airplant	Epiphyte	3'		
* <i>Tillandsia fasciculata densispica</i>	Stiff-Leaved Wild-Pine, Cardinal Airplant	Epiphyte	2'		
* <i>Tillandsia balbisiana</i>	Reflexed wild-pine, Northern needleleaf	Epiphyte	1'		
<i>Tillandsia flexuosa</i>	Banded wild-pine, Twisted airplant	Epiphyte	1'		
<i>Tillandsia paucifolia</i>	Twisted Wild-Pine, Potbelly Airplant	Epiphyte	< 1'		
<i>Tillandsia setacea</i>	Thin-leaved wild-pine, Southern needleleaf	Epiphyte	< 1'		
<i>Tillandsia variabilis</i>	Soft-Leaved Wild-Pine, Leatherleaf Airplant	Epiphyte	< 1'		

## Part Sun Average Soils

Mature Height

<i>Bursera simaruba</i>	Gumbo Limbo	Tree	40'+		
<i>Celtis laevigata</i>	Sugarberry, Southern Hackberry	Tree	40'+		
* <i>Exothea paniculata</i>	Inkwood, Butterbough	Tree	40'+		
<i>Persea borbonia var. humilis</i>	Red Bay	Tree	40'+		
<i>Vitis rotundifolia</i>	Muscadine, Muscadine grape	Vine	40'+		Long vines can be aggressive.
* <i>Ardisia escallonioides</i>	Marlberry	Tree	20'		
<i>Chrysophyllum oliviforme</i>	Satinleaf	Tree	20'		Up to 40 feet.
<i>Drypetes lateriflora</i>	Guiana-Plum	Tree	20'

<i>Eugenia axillaris</i>	White stopper	Tree	20'		
<i>Guettarda elliptica</i>	Everglades Velvetseed, Hammock Velvetseed	Tree	20'		
<i>Krugiodendron ferreum</i>	Black Ironwood	Tree	20'		
<i>Sabal palmetto</i>	Cabbage Palm, Sabal Palm	Tree	20'		
<i>Sapindus saponaria</i>	Soapberry	Tree	20'		
<i>Trema micrantha</i>	Florida Trema, Nettletree	Tree	20'		Up to 39 feet.
<i>Zanthoxylum clava-herculis</i>	Hercules'-Club	Tree	20'		Very spiny; up to 65 feet.
<i>Casasia clusiifolia</i>	Sevenyear-apple	Shrub	20'		
<i>Myrcianthes fragrans</i>	Simpson's Stopper	Shrub	20'		
<i>Schoepfia chrysophylloides</i>	Gulf Graytwig, Graytwig	Shrub	20'		Semi-parasitic; extremely difficult to grow.
<i>Ipomoea alba</i>	Common Moonflowers, Moonflowers	Vine	20'		Caution: can be aggressive; difficult to control.
<i>Vitis cinerea var. floridana</i>	Florida Grape	Vine	20'		
<i>Vitis shuttleworthii</i>	Calusa Grape	Vine	20'		
<i>Chiococca alba</i>	Common snowberry, Milkberry	Shrub	10'		Clambering mound.
<i>Coccothrinax argentata</i>	Silver Palm	Shrub	10'		
<i>Erythrina herbacea</i>	Coral Bean, Cherokee bean	Shrub	10'		
<i>Yucca aloifolia</i>	Spanish Bayonet	Shrub	10'		
<i>Ipomoea indica acuminata</i>	Ocean-Blue Morningglory	Vine	10'		
<i>Ipomoea violacea</i>	Coastal Morningglory	Vine	10'		
<i>Abutilon permolle</i>	Coastal Indian Mallow	Shrub	6'		
<i>Bejaria racemosa</i>	Tarflower	Shrub	6'		
* <i>Lasiacis divaricata</i>	Smallcane, Florida tibisee, Wild-bamboo	Shrub	6'		
<i>Lyonia lucida</i>	Fetterbush	Shrub	6'		
<i>Opuntia stricta</i>	Erect Prickly Pear Cactus	Shrub	6'		
<i>Senna ligustrina</i>	Privet Senna, Privet Wild Sensitive Plant	Shrub	6'		
<i>Solanum bahamense</i>	Bahama Nightshade	Shrub	6'		
<i>Centrosema virginianum</i>	Butterfly Pea	Vine	6'		
* <i>Chrysobalanus icaco</i>	Coco Plum	Shrub	3'		'Horizontal' is a shorter form.

<i>Ageratina jucunda</i>	Hammock Snakeroot	Wildflower	3'		
<i>Heliotropium angiospermum</i>	Scorpion's tail	Wildflower	3'		
* <i>Hymenocallis latifolia</i>	Mangrove Spider Lily	Wildflower	3'		
* <i>Rivina humilis</i>	Rouge Plant	Wildflower	3'		
<i>Solidago leavenworthii</i>	Giant Goldenrod	Wildflower	3'		
* <i>Solidago stricta</i>	Narrow-Leaved Goldenrod, Wand Goldenrod	Wildflower	3'		
<i>Campyloneurum phyllitidis</i>	Long Strap Fern	Fern	3'		
<i>Cyperus planifolius</i>	Flatleaf Flatsedge	Herb	3'		
<i>Dicliptera sexangularis</i>	False-Mint, Sixangle Foldwing	Herb	3'		
<i>Iresine diffusa</i>	Bloodleaf, Juba's Bush	Herb	3'		
<i>Galactia volubilis</i>	Downy Milkpea	Vine	3'		
<i>Epidendrum nocturnum</i>	Night-Scented Orchid; Night- Scented Epidendrum	Epiphyte	3'		
<i>Salvia coccinea</i>	Tropical Sage	Wildflower	2'		
<i>Phlebodium aureum</i>	Golden polypody	Fern	2'		Epiphyte common on Sabal palmetto.
<i>Pteris bahamensis</i>	Bahama Ladder Brake	Fern	2'		
<i>Capsicum annuum C. annuum</i>	Bird Pepper, Cayenne	Herb	2'		Edible; hot.
<i>Chiococca parvifolia</i>	Pineland Snowberry	Herb	2'		Low, clambering vine-like shrub.
<i>Catopsis floribunda</i>	Florida Strap Airplant	Epiphyte	2'		
<i>Epidendrum anceps</i>	Dingy-Flowered Star Orchid; Dingy-Flowered Epidendrum	Epiphyte	2'		
<i>Anemia adiantifolia</i>	Pineland Fern	Fern	1'		
<i>Psilotum nudum</i>	Whisk Fern	Herb	1'		Epiphyte or terrestrial.
<i>Encyclia tampensis</i>	Florida Butterfly Orchid	Epiphyte	1'		
<i>Epidendrum floridense</i>	Umbrella Star Orchid	Epiphyte	1'		Florida endangered.
<i>Tillandsia x smalliana</i>	Reddish Wild-Pine	Epiphyte	1'		
<i>Salvia occidentalis</i>	West Indian Sage	Wildflower	< 1'		Less than 6" with small blue flower; weedy in nature; may spread too well.
<i>Pleopeltis polypodioides michauxiana</i>	Resurrection fern	Fern	< 1'		Opens with moisture.
<i>Alternanthera flavescens</i>	Yellow Joyweed	Herb	< 1'		Forms large patches in coastal areas; white flower
<i>Galium bermudense</i>	Coastal Bedstraw	Herb	< 1'		Forms open patches.
